LB 324, 104, 522,
760-762

SPEAKER MARVEL: Debate is ceased. Okay, Senator Newell, you are closing on the kill motion.

SENATOR NEWELL: Mr. President, members of the body, I think that this proposal has been discussed at sufficient length. I think we all understand that while the concept to many of us has great appeal, that constitutionally, a constitutional provision of this kind has a number of problems. We have talked about these problems and I think they are massive. I think that Senator Hefner has a good point here and maybe we can work out some other solution to the very real problem that Senator Hefner is trying to address but I think this is the wrong solution and for that reason I think this body needs to encourage Senator Hefner and others who like this proposal to find a more workable solution. For that reason I offer the kill motion and I would hope that this body would accept it.

SPEAKER MARVEL: The motion before the House is the indefinite postponement of LB 324. All those in favor vote aye, opposed no. Have you all voted? The motion is to kill. Record the vote.
